Deciduous Shrubs	50
Climbers	54
Wisterias	55, 56

Prices. All prices and other quotations not accepted to date are hereby cancelled.

For less than five of a kind and size of these items, please add 10%.

Because of rapidly changing conditions we reserve the right to revise prices in this list if necessary.

All prices are for goods at our nursery unless otherwise stated.

Terms. 2% for cash, 10 days from date of delivery, except on packing, prepaid freight, etc., which are net. 30 days net to buyers of known and established credit, otherwise cash with order, or 25 per cent with order and balance C.O.D.

Pro-Rate. All orders are booked subject to crop yield and pro-rate, in the event a smaller crop is harvested than was anticipated.

Grading and Packing. Plants wider than tall are graded by width. Packing at cost, as usual. Plants will be packed to secure the lowest possible classification consistent with the nature of the goods shipped.

Shipping. Our responsibility ceases when goods are delivered to transportation company in good order. They travel at buyer's risk. Please state distinctly whether you wish goods shipped by freight, express or truck line. A moderate charge will be made for delivery by our trucks to areas over 50 miles distant from nursery.

Warranty. Seller gives no warranty, express or implied, as to the variety or productivity of any nursery stock he sells. Liability in all instances is limited to the purchase price. No liability is assumed by the seller for delay or failure to deliver caused by wars, strikes, fires, floods, droughts, embargoes or any other contingencies beyond seller's control. If the purchaser does not accept the goods on these terms they are to be returned.

Complaints. Must be made in writing within 10 days after buyer receives the goods.

New Items

In addition to our regular lines we are continually developing or introducing additional *novelties and specialties*. For the past 25 years we have doubtless imported the greatest assortment of new and rare woody plants brought into this country during that period, and at the same time have carried on a program of breeding various woody ornamentals, including Lilacs, Flowering Quinces, Flowering Fruit Trees, etc.

In order to call your attention to some of these items that are now available we have "boxed in" many plants of special interest.

ABBREVIATIONS

Letters A, B, C, D, E, etc., after variety names indicate sizes available.

BOTANICAL REFERENCES

Wherever appropriate, HORTUS SECOND (Bailey) has been used as the reference in establishing botanical nomenclature.

DESCRIPTIONS

Short descriptions have been included in this list. Where further information may be desired it will be given promptly on request.

HARDINESS RATINGS

As this list goes all over the U. S. A. and also abroad, we believe it a good idea to indicate hardiness. This has been done by giving after the name of each item a number in () indicating the zone in which it is considered hardy. Please understand that ratings show our honest opinion, but we disclaim all responsibility for their correctness. Please refer to map in center of book, used by courtesy of Arnold Arboretum and McGraw Hill Book Co.

PINTO TAG

We take pride in being a "Pinto Tag" nursery, enabling us to ship into nearly all California Counties with no point of destination inspection required.

LOCATION

Office and Sales Yard located on the Old Oakland Road at Coyote Creek Bridge, about one-fourth mile north of San Jose City Limits. Other growing grounds are within a mile or two of the office. Visiting nurserymen are welcome at all times.

IMPORTANT NOTICE FOR EASTERN NURSERYMEN

Out here everything east of the Rockies is "Eastern."

During January and February we ship several heated refrigerator cars or trucks to eastern points. Where size of order justifies, we can nearly always arrange for carload service to destination or some nearby point for pickup or reshipment. The total transportation charges for each car or truck will be prorated among all customers who have goods in it.

Conifers

Unless otherwise stated, all plants in this section will be balled at prices quoted, except those in containers.

ABIES nordmanniana (4)

NORDMANN FIR

One of the very best Firs. Needles dark glossy green above and silvery beneath.

1½ to 2 ft.	2.75
gal.	.95

pinsapo (6)

SPANISH FIR

Very regular and symmetrical. Stiff green needles.

3 to 3½ ft.	5.00
1½ to 2 ft.	2.75
gal.	.95

pinsapo 'Glauca' (6)

BLUE SPANISH FIR

Foliage silvery. Slower and more compact grower than preceding variety.

gal. grafted	1.00
--------------	------

CEDRUS atlantica 'Glauca' (6)

BLUE ATLAS CEDAR

Young plants have a stiff open appearance, but quickly develop into beautiful full specimens.

Sold out for this season.

atlantica 'Glauca Pendula' (6)

WEEPING BLUE ATLAS CEDAR

An exact counterpart of the beautiful Blue Atlas Cedar except that branches grow almost directly downward.

Sold out for this season.

deodara (7)

DEODAR CEDAR

Makes a large graceful specimen tree. Foliage gray-green.

4 to 5 ft.	5.00
3 to 4 ft.	3.00
5 gal.	3.00
gal.	.70

CEDRUS (continued)

deodara 'Repandens' (7)

SPREADING DEODAR CEDAR

A very attractive weeping form of picturesque habit. Should be staked for first few years.

Sold out for this season.

CHAMAECYPARIS lawsoniana 'Ellwoodi' (5)

ELLWOOD CYPRESS

A moderate grower of columnar habit. Foliage silvery blue, fine and lacy. All our plants are grafted as these have proven to be more vigorous and disease resistant.

3 to 3½ ft.	4.00
2½ to 3 ft.	3.50
2 to 2½ ft.	3.00
gal.	.95

lawsoniana 'Forsteckiana' (5)

FORSTECK CYPRESS

Dwarf, globular form with dense crowded branchlets, giving the appearance of deep green moss.

Sold out for this season.

lawsoniana 'Knowfeldensis' (5)

KNOWFELD CYPRESS

Habit graceful, upright and arching. Sage green foliage.

gal. grafted	.80
--------------	-----

lawsoniana 'Minima' (5)

DWARF LAWSON CYPRESS

Extremely dwarf and compact with dark green plumose foliage.

gal. grafted	1.25
--------------	------

lawsoniana 'Minima Aurea' (5)

GOLDEN DWARF LAWSON CYPRESS

Differs only from above in its golden foliage.

Sold out for this season.

CONIFERS

CHAMAECYPARIS (continued)

lawsoniana 'Moerheimi' (5)

MOERHEIM GOLD. LAWSON CYPRESS

Bushy, erect habit. Tips of branches yellow variegated. A good sturdy grower and transplants easily.

2½ to 3 ft.	3.00
gal. grafted	.95

lawsoniana 'Nidiformis' (5)

BIRDNEST CYPRESS

Branches semi-ascending and drooping toward tips. Natural growth wider than tall.

gal.	.80
------	-----

lawsoniana 'Stewarti' (5)

WINTERGOLDEN LAWSON CYPRESS

Growth slow, compact and erect. Remains as brilliantly golden in winter as in summer.

gal. grafted	.95
--------------	-----

obtusa 'Nana' (3)

DWARF HINOKI CYPRESS

gal. grafted	1.50
--------------	------

squarrosa 'Cyano-Viridis' (4)

BLUE GREEN MOSS CYPRESS

A very showy plant with soft finely textured blue-green-gray foliage. Grows fast, compact, and is hardy.

gal.	.85
------	-----

CRYPTOMERIA japonica 'Nana' (5)

DWARF CRYPTOMERIA

Slow growing globular habit.

gal.	1.00
------	------

JUNIPERUS chinensis 'Columnaris' (4)

BLUE COLUMN CYPRESS

Erect formal pyramidal habit. Foliage slightly silvery.

gal. grafted	.75
--------------	-----

chinensis 'Maney' (4)

MANEY JUNIPER

Semi-erect, spreading bushy habit with a bluish cast in the color of foliage.

gal. grafted	.80
--------------	-----

CONIFERS

JUNIPERUS (continued)

chinensis 'Obelisk' (4)

OBELISK CYPRESS

A hardy, narrow columnar form with very long rigid needles of a fine, never-changing blue color. Requires no trimming.

gal. grafted80

chinensis 'Pfitzeriana' (4)

PFITZER JUNIPER

Fast growing spreading Juniper with deep green foliage.

gal.65

chinensis 'Pfitzeriana Glauca' (4)

BLUE PFITZER JUNIPER

A blue form of Pfitzer Juniper.

gal. grafted70

chinensis 'Albo-Variegata' (4)

WHITELEAF CHINESE JUNIPER

Growth slow, with attractive white variegation.

gal. grafted85

chinensis 'San Jose' (4)

SAN JOSE CREEPING JUNIPER

Found here as a sport of one of the creeping Junipers. Color is about sage green, much more pleasing than Chinese Creeping Juniper. Shows no variegation but has a mixture of adult and juvenile foliage. After many years test it has become very popular and is now our best seller in prostrate Junipers.

2 to 2½ ft. 2.75

1½ to 2 ft. 2.50

gal. grafted85

chinensis 'Torulosa' (4)

TWISTED CHINESE JUNIPER

Growth gracefully fanshaped, upright and arching. Dark green foliage.

3 to 3½ ft. 4.00

2½ to 3 ft. 3.50

2 to 2½ ft. 3.00

5 gal. 3.00

gal. 1.00

CONIFERS**JUNIPERUS** (continued)**conferta (5)**

SHORE JUNIPER

Creeping form with light green foliage.

2 to 2½ ft.	3.50
1½ to 2 ft.	2.50
gal. grafted	.85

horizontalis 'Glauca' (2)

BLUE CREEPING JUNIPER

Steel blue foliage throughout the year.

gal. grafted	.85
--------------	-----

horizontalis 'Venusta' (2)

gal. grafted	.85
--------------	-----

occidentalis 'Glauca' (4)

SILVER SIERRA JUNIPER

A fine silvery blue form of the Sierra Juniper.
Habit slim and conical.

gal. grafted	.85
--------------	-----

sabina 'Tamariscifolia' (4)

TAMARIX JUNIPER

Slow growing, low spreading Juniper with blue-green foliage.

gal.	.75
------	-----

scopulorum 'Blue Haven' (5)

BLUE HAVEN ROCKY MT. JUNIPER

Fine textured foliage, deep blue.

2½ to 3 ft.	3.50
2 to 2½ ft.	3.00
gal. grafted	1.00

scopulorum 'Glauca' (2)

BLUE ROCKY MT. JUNIPER

gal. grafted	1.00
--------------	------

scopulorum 'Pathfinder' (2)

A showy pyramidal form with blue-gray foliage.

gal. grafted	1.00
--------------	------

scopulorum 'Pendula' (2)

WEEPING ROCKY MT. JUNIPER

gal. grafted	1.00
--------------	------

CONIFERS

JUNIPERUS (continued)

squamata 'Meyeri' (4)

MEYER JUNIPER

Irregular spreading habit. Foliage silvery blue.

2 to 2½ ft.	3.00
1½ to 2 ft.	2.50
gal.	1.00

virginiana 'Lebretoni' (3)

LEBRETON EASTERN REDCEDAR

Growth erect and compact. One of the most intensely glaucous conifers known.

gal. grafted	.85
--------------	-----

virginiana 'Manhattan Blue' (3)

Compact pyramidal form with deep blue-green foliage.

gal. grafted	.85
--------------	-----

METASEQUOIA glyptostroboides (4-5)

DAWN REDWOOD

A beautiful, rapid growing deciduous conifer resembling native California Redwood.

Sold out for this season.

PICEA excelsa (P. abies) (2)

NORWAY SPRUCE

Most popular Conifer for outdoor Christmas trees.

3 to 3½ ft.	4.00
2½ to 3 ft.	3.50
5 gal.	2.50

pungens (green) (2)

COLORADO SPRUCE

A formal tree with close stiff branches. Color varies from light to dark green.

3½ to 4 ft.	6.00
2½ to 3 ft.	4.00
gal.	1.00

pungens 'Moerheimi' (2)

MOERHEIM BLUE SPRUCE

Improved deep blue form of Colorado Spruce.

Sold out for this season.

CONIFERS

PINUS densiflora (4)

JAPANESE RED PINE
gal.

.75

halepensis (7)

ALEPPO PINE

Hardy, bushy form. Foliage light green.

gal. .65

mugo 'Mughus' (2)

DWARF MUGHO PINE

Probably the dwarfest of all Pines. Grows about
as wide as high.

gal. .85

patula (8)

JELECOTE PINE

Sold out for this season.

pinea (7)

ITALIAN STONE PINE

UMBRELLA PINE

Broad, spreading habit.

gal. .85

radiata (7)

MONTEREY PINE

Medium sized, picturesque fast growing Pine.

5 to 6 ft. 5.00

gal. .65

sylvestris (2)

SCOTS PINE

gal. .75

thunbergi (4)

JAPANESE BLACK PINE

gal. .80

SEQUOIA sempervirens (7)

REDWOOD

Tall, graceful native of California.

5 gal. 2.75

gal. .80

TAXUS baccata 'Fastigiata' (6)

IRISH YEW

Columnar habit, dark green foliage. Slow
growing.

Sold out for this season.

TAXUS (continued)**baccata 'Aurea' (6)**

GOLDEN ENGLISH YEW

2 to 2½ ft.	3.00
1½ to 2 ft.	2.50
5 gal.	.75

baccata 'Fastigiata Aurea' (6)

GOLDEN IRISH YEW

2 to 2½ ft.	3.00
5 gal.	.75

baccata 'Silver Green' (6)

SILVER GREEN SPREADING YEW

A neat compact spreading form with rich deep green foliage with a slight silvery cast.

2 to 2½ ft.	2.50
1½ to 2 ft.	2.25
gal.	.85

cuspidata (4)

JAPANESE YEW

Large tree erect or spreading; hardy.

2 to 2½ ft.	3.00
1½ to 2 ft.	2.50
5 gal.	3.00
gal.	.85

THUJA occidentalis 'Pyramidalis' (2)

PYRAMIDAL EASTERN ARBORVITAE

Narrow pyramidal habit. Deep rich green foliage.

gal. grafted	.85
--------------	-----

orientalis 'Aurea Nana' (5-6)

BERCKMANS GOLDEN ARBORVITAE

Dwarf, compact form of rich golden color.

2 to 2½ ft.	3.00
1½ to 2 ft.	2.50
gal.	.85

orientalis 'Compacta' (4-5)

COMPACT ORIENTAL ARBORVITAE

A slow-growing, compact, green form.

2½ to 3 ft.	3.50
2 to 2½ ft.	3.00
1½ to 2 ft.	2.50
15 to 18 in.	2.25
gal.	.85

Broad Leaved Evergreens

Unless otherwise stated, all plants in this section will be balled at prices quoted, except those in containers.

ABELIA 'Edward Goucher' (6)

Similar to *A. grandiflora*, but bearing lilac-pink instead of white flowers, in great profusion throughout the summer.

gal. .60

floribunda (8)

MEXICAN ABELIA; RED ABELIA

Small shrub with glossy dark green foliage producing tubular rosy red flowers $1\frac{1}{2}$ to 2 inches long. Requires partial shade.

Sold out for this season.

ARBUTUS menziesi (7)

MADRONE; STRAWBERRY TREE

Tall, evergreen tree bearing clusters of orange-red berries. Foliage large, glossy, dark green.

5 gal. 2.75
gal. 1.00

unedo (7)

STRAWBERRY MADRONE

Large, handsome shrub with dark green leaves. Bears red strawberry-like fruits in winter.

2 $\frac{1}{2}$ to 3 ft. 3.00
2 to 2 $\frac{1}{2}$ ft. 2.75
gal. .65

unedo 'Compacta' (7)

COMPACT STRAWBERRY MADRONE

2 $\frac{1}{2}$ to 3 ft. 3.00
2 to 2 $\frac{1}{2}$ ft. 2.75
gal. .65

ARDISIA japonica (6)

JAPANESE ARDISIA

An attractive, slow growing acid-loving shrub to 18 in. high. When only four or five inches tall it commences to bear pale pink flowers followed by showy red berries.

gal. .80

ARISTOTELIA racemosa (8)

NEW ZEALAND WINEBERRY

An evergreen tree to 15 or 20 ft. Leaves about 5 inches long and deeply serrated, light green above and ruddy beneath. Small rose colored flowers followed by dark red or nearly black berries in clusters.

gal.75

AUCUBA japonica (male) (7)

JAPANESE AUCUBA

All of our berry-bearing Aucubas are grown from cuttings taken from female plants but must be pollinized by male plants in order to produce berries.

gal.75

japonica 'Crotonifolia' (7)

CROTONLEAF AUCUBA

Slower growing but otherwise similar to other variegated Aucubas, but the brilliance and intensity of its golden variegation far surpasses them. This is a male form and can be used as a pollinizer.

gal.80

japonica 'Fructo-Albo' (7)

Foliage profusely and brightly silver-variegated. Fruit pale pinkish-buff. Requires shade.

gal.65

japonica 'Variegata (Maculata)' (7)

GOLD DUST AUCUBA

Large green leaves covered with yellow dots. Berries red.

gal.65

japonica 'Nana' (7)

DWARF AUCUBA

A dwarf green leaved form bearing heavy clusters of unusually large berries.

gal.65

japonica 'Salicifolia' (7)

LANCELEAF AUCUBA

Leaves clear deep green, long and narrow. Bears heavy clusters of bright red berries.

gal.65

AZARA gilliesi (7-8?)

GOLDEN AZARA

A beautiful shrub with holly-like foliage. Bears golden flowers in showy drooping racemes in winter.

Sold out for this season.

integrifolia (9)

GOLDSPIRE AZARA

Small tree to 15 ft. Bears deliciously fragrant small yellow flowers in masses on drooping branches.

Sold out for this season.

lanceolata (9)

LANCELEAF AZARA

Handsome shrub or small tree with slight drooping branches bearing masses of fragrant yellow flowers.

Sold out for this season.

microphylla (9)

BOXLEAF AZARA

A vigorous, graceful shrub with small bright green leaves and small yellow fragrant flowers.

Sold out for this season.

BERBERIS corallina 'Compacta' (4)

(B. stenophylla 'Nana Compacta')

CORAL BARBERRY

A hardy evergreen hybrid from Ireland. Has small dark green foliage. Entire plants are covered with brilliant yellow flowers in Spring. A true dwarf suitable for rock gardens.

Sold out for this season.

stenophylla 'Irwini' (B. gracilis) (5)

IRWIN BARBERRY

Slow growing shrub of graceful habit. Flowers deep yellow.

Sold out for this season.

BRUNFELSIA calycina (7)

BRAZIL RAINTREE

Flowers open deep violet changing to white.
gal.

.65

CALLISTEMON citrinus 'Splendens' (9)

BRILLIANT BOTTLEBRUSH

The most vividly colored red "Bottlebrush" we have ever seen. Heavy bloomer and of compact habit.

5 gal.	2.50
gal.	.65

CEANOTHUS gloriosus (7-8)

POINTREYES CEANOTHUS

A splendid prostrate form. Flowers large, profuse and deep blue. Grows well and covers the ground like a mat.

gal.	.70
------	-----

griseus 'Horizontalis' (8-9)

CARMEL CREEPER

A fast growing, spreading variety. Flowers light blue.

gal.	.70
------	-----

impressus (9)

SANTA BARBARA CEANOTHUS

Flowers are deep blue in extreme profusion. Usually grows wider than high.

gal.	.70
------	-----

'Mary Lake' (7-8)

gal.	.70
------	-----

'Sierra Blue' (7-8)

Large clusters of bright blue flowers. Upright habit.

gal.	.70
------	-----

thyrsiflorus 'Repens' (7)

CREEPING BLUEBLOSSOM

One of our best and hardiest creeping "Wild Lilacs." Flowers deep blue.

gal.	.70
------	-----

CERATONIA siliqua (8)

CAROB; ST. JOHN'S BREAD

Round-headed evergreen tree of medium size.

5 gal.	2.75
--------	------

CHOISYA ternata (6-7)

MEXICAN-ORANGE

A compact free blooming shrub. Attractive green foliage; flowers pure white and fragrant.

4 to 5 ft.	3.50
3 to 4 ft.	3.00
gal.	.75

BROAD LEAVED EVERGREENS

CISTUS corbariensis (7)

Growth low; flowers pure white and attractive.
gal. .65

CITRUS 'Dwarf Orange' (9?)

gal. 1.00

'Eureka Lemon' (8?)

2½ to 3 ft.	3.00
2 to 2½ ft.	2.75
1½ to 2 ft.	2.50
gal.	.70

'Limequat' (9)

gal. 1.00

'Meyer Lemon' (8?)

2½ to 3 ft.	3.00
2 to 2½ ft.	2.75
1½ to 2 ft.	2.50
5 gal.	2.50
gal.	.70

'Rangpur Lime' (9½)

gal. .70

'Robertson Navel Orange' (9?)

gal. 1.00

'Washington Navel Orange' (9?)

gal. 1.00

CLETHRA arborea (9)

LILY-OF-THE-VALLEY CLETHRA

A vigorous large shrub of quick growth.
Pure white, richly fragrant flowers borne in
terminal panicles strongly resemble those
of Lily-of-the-Valley. Requires acid soil.

gal. .65

COLEONEMA pulchrum (9)

PINK DIOSMA

gal. .55

CORNUS capitata (7)

EVERGREEN DOGWOOD

Slow growing evergreen tree bearing cream
colored flowers followed by attractive fruits.

5 gal.	2.75
gal.	.65

CORREA harrisi (9)		
RED AUSTRALIAN CORREA		
gal.		.85
magnifica (9)		
YELLOW AUSTRALIAN CORREA		
Tallest growing of the forms listed.		
gal.		.70
neglecta (9)		
CORAL AUSTRALIAN CORREA		
A neat slow growing shrub of compact habit.		
Flowers soft orange-scarlet.		
gal.		.85
pulchella (9)		
PINK AUSTRALIAN CORREA		
Low growing shrub with dainty bell-shaped flowers from about mid-October thru mid-April.		
gal.		.60
COTONEASTER apiculata (4)		
CRANBERRY COTONEASTER		
Far superior to any of the other low spreading growers. The berries are gorgeous, largest of the Cotoneasters so far as we know. Our grafted plants commence bearing the first year as a rule.		
gal. grafted		.70
conspicua 'Decora' (7)		
NECKLACE COTONEASTER		
Small graceful shrub, almost prostrate. Bears an enormous crop of bright red berries all along the slender, arching branches.		
gal. grafted		.70
CRINODENDRON dependens (8)		
WHITE LILY TREE		
An excellent small evergreen tree of quick growth; of good habit with gray-green foliage and bearing hanging white bell-shaped flowers. Grows well in any good soil.		
Sold out for this season.		
DAIS cotinifolia (9)		
Small evergreen tree or shrub producing beautiful fragrant pink flowers during the summer.		
gal.		.60
DAPHNE burkwoodi (5)		
BURKWOOD DAPHNE		
Flowers exactly the same as D. 'Somerset.'		
2 gal.		1.50

DAPHNE (continued)

collina 'Neapolitana' (7)

An excellent slow growing Daphne flowering when very young. Rosy-mauve; clove scented.

Sold out for this season.

mantensiana (7)

MANTEN DAPHNE

Compact habit. Flowers profusely during late spring and summer. Orchid-mauve, fragrant.

2 gal.	3.00
gal.	.25

odora 'Alba' (7-8)

WHITE WINTER DAPHNE

15 to 18 in.	2.50
2 gal.	1.75
gal.	.85

odora 'Alba Marginata' (7-8) (new)

VARIEGATED WHITE WINTER DAPHNE

gal.	.85
------	-----

odora 'Marginata' (7-8)

YELLOWEDGE WINTER DAPHNE

Deep green leaves edged creamy white, pink fragrant flowers in clusters.

15 to 18 in.	2.50
5 gal.	2.50
2 gal.	1.75
gal.	.85

odora 'Rose Queen' (7-8)

ROSE QUEEN WINTER DAPHNE

A distinct form of very compact habit. Leaves dark green. Flowers are deep rose pink, large and in heavy clusters.

Sold out for this season.

'Somerset' (5)

SOMERSET DAPHNE

Evergreen with us. Bears deliciously fragrant flowers, pink opening white and becoming rose-pink before they drop. Spring blooming.

Sold out for this season.

BROAD LEAVED EVERGREENS

DODONAEA viscosa 'Purpurea' (8?)

PURPLE LEAVED DODONAEA

A rapid-growing New Zealand shrub with bronzy leaves turning purple in Winter.

5 gal.	2.75
gal.	.75

DRIMYS winteri (9)

WINTERSBARK DRIMYS

Small South American tree of the Magnolia family bearing small Jasmine-scented pure white flowers. Foliage aromatic.

5 gal.	2.75
gal.	.85

ELAEAGNUS pungens 'Maculata' (7)

GOLDEN ELAEAGNUS

The entire central part of leaves is golden yellow with green margin.

gal. grafted	.85
--------------	-----

ERIOBOTRYA japonica (7)

LOQUAT

Evergreen tree 20 to 30 feet.

5 gal.	2.50
gal.	.65

ESCALLONIA 'Gwendolyn Anley' (7)

gal.	.60
------	-----

EUCALYPTUS cinerea (9)

SILVERLEAF EUCALYPTUS

gal.	.65
------	-----

EURYOPS pectinatus (9)

GOLDEN SHRUB-DAISY

African evergreen shrub with gray-white foliage. Rich yellow flowers in spring.

gal.	.60
------	-----

pectinatus 'Hybrid' (9)

Upright habit and free blooming over a long period.

gal.	.60
------	-----

FEIJOA sellowiana (8)

PINEAPPLE GUAVA

Large shrub with grey-green foliage. Flowers red in center; white at margin.

gal.	.65
------	-----

FATSHEDERA lizei (8)

FATSHEDERA

Half-climbing evergreen shrub with Aralia-like foliage.

gal.65

FREMONTIA californica (9)

FREMONTIA

A small native tree or large shrub requiring a dry location. Very showy large yellow flowers are borne profusely in late spring and summer.

gal.75

mexicana (9)

MEXICAN FREMONTIA

gal.75

GARDENIA jasminoides 'Prostrata'

(G. radicans) (9)

A miniature Gardenia having glossy foliage and small, white, fragrant flowers.

gal.80

GREVILLEA robusta (9)

SILKOAK GREVILLEA

Tall tree with showy orange flowers in summer.

gal.70

rosmarinifolia (9)

ROSEMARY GREVILLEA

Sold out for this season.

HEBE menziesi (8-9)

MENZIES HEBE (Veronica)

Small leaved, compact habit. Flowers white.

gal.65

ILEX — HOLLY

All are grafted and female, except the pollinizer. Uniform price for all types below.

gal.85

4 in. pot70

altaclarensis 'Wilsoni' (7)

aquifolium (5) ENGLISH HOLLY

(4 in. pots only)

aquifolium, 'male' (5)

(For use as a pollinizer) (gal. only)

aquifolium 'Golden Variegated' (5)

aquifolium 'Pendula' (5) (4 in. pots only)

aquifolium 'Silver Variegated' (5)

aquifolium 'Van Tol' (5)

'San Jose Hybrid' (7) (4 in. pots only)

BROAD LEAVED EVERGREENS

JASMINUM parkeri (7)

PARKER JASMINE

A dainty miniature shrub of rounded, compact habit. Flowers bright yellow in profusion. Fine for rock gardens.

gal. .85

LEPTOSPERMUM - TEATREE (9)

keatleyi, one of the finest of the species; large single pink flowers.

Sold out for this season.

'Red Damask,' soft red.

gal. .65

'Ruby Glow'

Showy double red flowers.

gal. .65

LEUCADENDRON argenteum (10)

SILVER TREE

The famous Silver Tree of the Cape of Good Hope. Bark, branches and especially foliage are intensely silvery. Suitable only to warm climates.

gal. .85

4 in. pot .70

LIGUSTRUM — PRIVET

SUWANNEE RIVER PRIVET

(Plant Pat. No. 1402)

Low spreading habit, compact, dark green foliage. Resistant to drought and cold.

gal. .95

LOROPETALUM chinense (7)

FRINGEFLOWER

A slow growing, shade loving shrub that starts blooming freely while still small. The graceful white flowers have strap-shaped petals like Witch Hazel and appear in late winter and early spring.

gal. .70

MAGNOLIA *grandiflora* (7)

SOUTHERN MAGNOLIA

A handsome tree with large glossy green foliage. The huge creamy-white fragrant flowers are up to 8 inches in diameter.

gal.65

***grandiflora* 'St. Mary' (7)**

ST. MARY MAGNOLIA

Especially desirable as it grows slower and smaller than *M. grandiflora*. The large tropical appearing foliage is deep glossy green above and covered with an attractive brown tomentosum beneath.

The beautiful immense flowers (12 to 14 in. diameter) when fully open are pure white and pleasantly fragrant. Plants bloom when very young.

5 gal. grafted 3.75
gal. grafted 1.50

MAHONIA *lomariaefolia* (6)

CHINESE HOLLYGRAPE

A relatively new Mahonia from Asia having large pinnate leaves up to 15 in. in length, each leaflet having deeply serrated and waved margins. Flowers are larger and brighter than American varieties, in clusters of as many as six or eight spikes, a brilliant chrome yellow. Habit of growth is somewhat more vigorous than *M. aquifolium* and the effect of the plant is tropical and very interesting.

5 gal. 3.00
gal.75
4 in. pot55

4 in. pot recommended for eastern L. C. L. shipments.

MAYTENUS *boaria* (7?)

MAYTEN

Hardy small evergreen tree from Chile.

gal.75

MICHELIA *doltsopa* (9)

Tall tree of Magnolia family. Fragrant white flowers.

gal. 1.50

MYRTUS communis 'Compacta' (8)

COMPACT MYRTLE

Slow growing, compact. Small glossy, green leaves.
gal. .60

NANDINA domestica (7)

SACRED BAMBOO

Rich green foliage turning red in the Fall.
gal. .60

NERIUM oleander (9)

OLEANDER

Our stock is clean, free from disease and can be shipped anywhere.

B 3 to 4 ft. 2.75
C 5 gal. 2.25
G gal. .60

Letters after varieties indicate sizes available.

'Com. Bartholemey,' large double red. BCG

'Double Pink,' double rose pink. BG

'Double White,' large, semi-double to double. BG

'Double Yellow,' double light yellow. G

'Jannoch Single Red,' G

'Mrs. Roeding,' large double salmon pink. BG

'Mrs. Swanson,' very fine double soft pink. BCG

'Palm Springs,' single pearl pink. B

'Pink Beauty,' single pink. BG

'Prof. Bodkin,' single red. G

'Single White,' BG

OCHNA multiflora (9)

BIRD'S EYE BRUSH

Attractive shrub with finely-toothed leaves of a bronzy tint. The yellow flowers are followed by red fruit.

gal. .65

OLEA europaea (8-9)

OLIVE

Grown in tree form for ornamental purposes.

gal. .65

OSMANTHUS armatus (7)

CHINESE OSMANTHUS

A handsome species with deep green foliage up to 7 in. long. The fragrant white flowers are followed by small egg-shaped blue berries.

Sold out for this season.

OSMANTHUS (continued)

aurantiacus (9)

ORANGE OSMANTHUS

Large shrub or small tree producing masses of small but deliciously fragrant orange colored flowers in fall and winter.

gal. grafted85

delavayi (7-8)

DELAVAY OSMANTHUS

A very popular shrub that "has everything"—compact habit, arching branches, small attractive foliage and in the spring has possibly the richest scented white flowers of any in this genus.

gal. grafted75

forresti (7)

FORRESTS OSMANTHUS

A vigorous shrub with attractive foliage from 5 to 7 in. long with wavy margins. Flowers creamy yellow and deliciously fragrant.

Sold out for this season.

ilicifolius (6)

HOLLY OSMANTHUS

Bush of slow compact growth with foliage similar to English Holly. Flowers in fall, pure white. Very attractive.

gal.70

'San Jose Hybrid' (8)

Attractive tall shrub, excellent for background planting. Foliage holly-like; flowers creamy yellow and fragrant.

gal.70

suavis (7)

Closely related to O. delavayi but of upright habit. Flowers are white and fragrant.

Sold out for this season.

PHORMIUM tenax 'Atropurpureum' (9)

PURPLE NEW ZEALAND FLAX

gal. 1.00

PHOTINIA arbutifolia (8-9)

CHRISTMAS BERRY; TOYON

Native California shrub to 15 ft. bearing bright red berries.

gal.85

BROAD LEAVED EVERGREENS

PHOTINIA (continued)

deflexa (8)

FORMOSA PHOTINIA

Showy small tree with long, linear foliage coloring beautifully in fall.

5 gal.	3.50
gal.	1.25

frazeri (7)

An interesting new hybrid of medium size. New growth bright red. Does not mildew.

gal.	1.25
------	-------	------

serrulata 'Nova' (7)

CHINESE TOYON

A very attractive vigorous shrub with large dark green foliage with wavy serrated margins. The new growth is intensely copper colored. Bears large clusters of white flowers followed by red berries.

Sold out for this season.

serrulata nova lineata (7)

REDTWIG CHINESE TOYON

A very attractive sport of Chinese Toyon. New foliage is very light bronze and matured leaves are dark green marked white along midrib. Bark on new growth is a vivid bright red.

Sold out for this season.

PIERIS japonica (5)

LILY-OF-THE-VALLEY SHRUB

An attractive bushy shrub of medium height with handsome glossy foliage. The white bell-shaped flowers are borne in profusion on long drooping racemes.

gal.75
------	-------	-----

PITTOSPORUM tobira 'Variegata' (7)

WHITE SPOT TOBIRA

A slow growing variegated form.

gal.70
------	-------	-----

PROSTANTHERA rotundifolia (9)

ROUNDLEAVED MINTBUSH

Small leaved medium-sized shrub. Flowers blue or purple.

Sold out for this season.

BROAD LEAVED EVERGREENS

PYRACANTHA coccinea 'Lalandi' (thornless) (4)

LALAND FIRETHORN

gal.65

'San Jose' (7)

SAN JOSE FIRETHORN

Bears the largest berries we have seen on a pyracantha (up to $\frac{5}{8}$ in. wide) in enormous clusters that are well placed. Color is nearly red with a slight orange tone.

gal.65

'Santa Cruz' (7)

Growth low and spreading, excellent for ground cover or banks. Berries bright red in profusion.

gal.65

PYRUS kawakami (8?)

EVERGREEN PEAR

A handsome shrub or small tree with large, luxuriant foliage. White fragrant flowers massed in spring.

gal. grafted 1.00

QUERCUS ilex (7)

HOLLY OAK

Large, densely leafy tree.

gal.70

suber (7)

CORK OAK

A fine broad-headed evergreen tree.

gal.70

RAPHIOLEPIS indica 'Rosea' (7)

PINK INDIA RAPHIOLEPIS

A slow growing shrub of good habit. Heavy dark green foliage assuming bronzy winter tints. Flowers are soft pink in the spring followed by blue berries. Grafted plants.

2 to $2\frac{1}{2}$ ft.	3.00
$1\frac{1}{2}$ to 2 ft.	2.75

BROAD LEAVED EVERGREENS

ROSMARINUS foresteri (8)

SANTA BARBARA ROSEMARY

A semi-prostrate shrub.
gal.

.60

officinalis 'Prostratus' (6)

CREEPING ROSEMARY

Excellent ground cover; fast growing.
gal.

.60

SARCOCOCCA ruscifolia (7)

FRAGRANT SARCOCOCCA

Handsome and desirable for part or full shade.
Foliage glossy; flowers white, small and fragrant.
Berries deep purplish red.
gal.

.65

saligna (7)

WILLOWLEAF SARCOCOCCA

A Himalayan, shade loving, graceful shrub bearing white flowers followed by purple berries.
gal.

.60

SKIMMIA foremanni (7)

FOREMANN SKIMMIA

Another fine, slow growing, shade loving evergreen. Leaves are large and glossy; berries bright scarlet. Does not require acid soil.

gal.

.85

japonica (male) (7)

JAPANESE SKIMMIA

Sold out for this season.

reevesiana (7)

REEVES SKIMMIA

Low growing to 2 ft. Usually self fertile.

gal.

.85

STENOCARPUS sinuatus (9)

FIREWHEEL TREE

One of Australia's most beautiful flowering evergreen trees with large oak-like leaves. Bears a profusion of bright red, wheel-shaped, showy flowers after reaching maturity.

5 gal.

2.75

gal.

1.25

HARDI NESS MAP

HOW TO USE THIS MAP

From it determine what zone you are in. Every item carrying your zone number or a smaller number should be hardy with you. If you want to gamble on those rated one zone greater, there is at least a chance for success but two zones greater will probably be hopeless.

For full explanation of the entire system see Page 2.

**TERNSTROEMIA japonica
(Cleyera japonica) (6-7)**

TERNSTROEMIA

Foliage Camellia-like with reddish tint during the winter. Produces small fragrant flowers in summer followed by red berries.
gal. .75

TRACHELOSPERUM jasminoides (8-9)

(Rhynchospermum jasminoides)

STAR JASMINE

These plants can be used as ground cover or staked and grown as a flowering shrub. Thrive equally well in sun, shade or part shade.
(See under Climbers also.)

gal. .65

VIBURNUM burkwoodi (5)

BURKWOOD VIBURNUM

Well-known shrub with rich glossy green foliage turning purplish bronze in winter. Flowers in large clusters, intensely fragrant, pink in bud and opening white.

gal. .65

chenaulti (5)

CHENAULT VIBURNUM

Similar to V. burkwoodi but with even larger flower-heads and finer foliage.

gal. .70

cinnamomifolium (8)

CINNAMON VIBURNUM

Similar to V. davidi with larger, handsomer foliage. Much faster growing, making a fairly large shrub.

gal. .70

davidi (8)

DAVID VIBURNUM

A low, spreading compact shrub. Leaves leathery, large and very attractive. Blooms profusely in small white clusters followed by turquoise blue berries. Requires shade.

gal. .80

Flowering Fruit Trees

All plants in this section will be dug "bare roots." Grading is by caliper and approximate height, except Cherries.

(Orders must be in multiples of 5 of one size and kind.)

POPULUS nigra 'Italica' (3)

LOMBARDY POPLAR

Tall, narrow, columnar tree.

10 to 12 ft. branched	1.90
8 to 10 ft. branched	1.60
6 to 8 ft. branched	1.25

tremuloides (3)

QUAKING ASPEN

6 to 8 ft.	1.75
5 to 6 ft.	1.50
4 to 5 ft.	1.25

ROBINIA hispida 'Macrophylla' (5)

SMOOTH ROSE-ACACIA

Bears a great profusion of large clusters of flowers in spring exactly like large lavender-pink sweet peas. Blooms first year after planting.

6 ft. stem, top grafted.....	3.50
------------------------------	-------------

'Monument' (5)

MONUMENT LOCUST

Erect growing tree, to 15 or 20 feet. Flowers large, soft lavender pink.

8 to 10 ft. branched.....	2.00
6 to 8 ft. branched.....	1.75
5 to 6 ft. branched.....	1.50

SOPHORA japonica (4)

JAPAN PAGODA-TREE

Medium sized tree with light yellow flowers borne on terminal panicles.

gal.65
-----------	------------

ULMUS 'Buisman Elm' (4)

8 to 10 ft.	1.75
6 to 8 ft.	1.50
5 to 6 ft.	1.25

pumila (4)

SIBERIAN ELM; CHINESE ELM

A fine shade and street tree recommended for arid regions. Fast growing.

14 to 16 ft. branched.....	3.00
12 to 14 ft. branched.....	2.50
10 to 12 ft. branched.....	2.00
8 to 10 ft. branched.....	1.50
6 to 8 ft. branched.....	1.25

ZELKOVA serrata (5)

JAPANESE ZELKOVA

Small, attractive, elm-like tree; disease resistant.

6 to 8 ft.	1.50
5 to 6 ft.	1.25
5 gal.	2.50
gal.70

Lilacs

SYRINGA vulgaris (3)

For more than twenty-five years we have been engaged in a program of Lilac breeding and selection with two main objectives; first to broaden the color range of Lilacs and second, to improve the form and size of the individual florets and of the flower clusters.

During this period we have tested and observed hundreds of Lilacs, both of our own breeding as well as all named varieties which we could obtain. Today we offer a selection which contains only the best of the finest Lilacs obtainable.

In order to make it possible for every nurseryman to readily obtain a collection of outstanding Lilacs we have ruthlessly culled our list, so that the ones listed here are a complete cross-section, both in color and form, of the best in *Syringa vulgaris* varieties.

NOTE: Lilacs require time to become fully established and cannot be expected to produce flowers of normal size and color for two or three years after transplanting. It is recommended that unopened flower buds be removed the first year after planting, and that faded flower clusters be removed in following years. It is also suggested that lilacs be planted with the bud union three or four inches below the surface of the ground.

All lilacs from $1\frac{1}{2}$ ft. up have been pinched and are well-developed, branched plants.

(Please order bare-root lilacs in multiples of five of each size and variety as they are bundled that way when dug.)

NOVELTIES and NEW INTRODUCTIONS

3	to 4	ft. branched	1.75
2	to 3	ft. branched	1.50
$1\frac{1}{2}$	to 2	ft. branched	1.25
1	to $1\frac{1}{2}$	ft.	1.00

Fantasy (New)

A W. B. Clarke & Co. introduction having a unique combination of colors! The large **double** flowers borne on upright compound clusters are a pleasing mauve-pink in the bud and on the outside of the petals. As the flowers open they are a much lighter shade of mauve to lavender on the inside, finally showing almost white in the fully matured flowers. The substance of the flowers is unusually heavy and waxlike and as a result they will keep well when cut.

NOVELTIES (continued)**Purple Gem (New)**

A W. B. Clarke & Co. introduction of outstanding quality, having medium large **single** flowers, borne on long heavy clusters, well above the foliage. Buds and open flowers are a rich ruddy purple of a gem-like brilliancy, with some violet showing in the fully open clusters. This mid-season lilac seems to be an excellent keeper as a cut flower and should be a welcome addition to the list of dark flowered varieties.

Souvenir de Georges Truffault (Lemoine)

A magnificent variety with very long and broad thyrses, enormous flowers, pale lilac flushed mauve, clearer eye. Flowers often **semi-double**.

Souvenir de Luis Chasset (New) (Lemoine)

One of V. Lemoine Sons' newest introductions. Enormous **single** flowers in large, broad compound clusters of a deep ruby red! This is an outstanding variety blooming about mid-season and is probably the best so-called "red" lilac developed to date.

Spring Dawn (New)

Grown specifically for its pleasing and unusual color and for its freedom of bloom in large compound spikes. Flowers are **single**; buds pink to rose, opening to a soft blue.

SELECTED LIST

B 3	to 4	ft. branched	1.30
C 2	to 3	ft. branched	1.10
D 1½	to 2	ft. branched	.90
E 1	to 1½	ft.	.75

Letters after varieties indicate sizes available.

Double Flowering Group

Alice Eastwood, BCDE, dark purple buds, opening mauve pink with long, slim, elegant clusters, four sided, and frequently paired; medium late, on vigorous erect plants.

Ami Schott, BCDE, very fine deep blue, midseason bloom, on sturdy, well developed plants.

Capt. Perrault, CDE, probably the best of the double pinks, early blooming and compact habit.

Ellen Willmott, CDE, white, with well-formed clusters, midseason bloom, on compact growing plants.

SELECTED LIST (continued)

Double Flowering Group (continued)

Gismonda, CDE, reddish purple, much darker in bud, with large individual "florets." Midseason to late bloom, on medium growing plants.

Katherine Havemeyer, CDE, purplish mauve, rather large "solid" clusters, with midseason blooms, on medium fast growing plants.

Maximowicz (Maxie), BCDE, violet heliotrope, well formed clusters, fairly early blooms on medium growing plants.

Mrs. Edward Harding, BCDE, called "red" by its originator, it is more nearly a reddish purple, but a very fine unusual color in lilacs. Rapidly makes a large bush.

Paul Thirion, CDE, claret rose, with individual "florets" like large double violets; a late flowering variety, on a compact, rather slow growing bush.

Splendor, BCDE. Plant Pat. No. 837. The dark ruddy purple buds open to purplish blue, moderately large **double** flowers in clusters of good size. Mid-season to late. The blooms are not crowded in the clusters which spoils so many otherwise good doubles.

Sunset, BCDE. Plant Pat. No. 937. Buds are deep mauve carmine; the fully **double** flowers with numerous long "petals" are over an inch wide and ruddy purple.

Violetta, BCDE, dark violet, very double flowers in medium clusters, about the latest to bloom; of medium growth habit.

Single Flowering Group

Blue Hyacinth, CDE, dark blue hyacinth shaped flowers in large clusters, early blooming on erect growing plants. This is a fine, unique variety, and highly recommended.

Clarke's Giant, BCDE. Plant Pat. No. 754. Enormous **single** flowers of soft gentian blue. Huge clusters of unusual pyramidal form up to 12 in. long and 7 to 8 in. wide at base. Plant is tall and vigorous growing.

SELECTED LIST (continued)

Single Flowering Group (continued)

Esther Staley, BCDE. Plant Pat. No. 768. Opening buds are red; flowers large, **single** and pure pink without the usual lavender tinge. Clusters of good size and produced freely in mid-season.

Firmament, CDE, sky blue with large well-placed clusters. Blooms in midseason on medium sized plants.

Jan Van Tol, DE, purest white, large flowers in huge clusters, blooming in midseason. Clusters are well placed on medium fast growing bushes.

Kate Sessions, BCDE, mauve purple to blue, in large well placed compound clusters. This is the earliest of all our lilacs, and deserves to be in every collection! Medium growing, bushy plants.

Marceau, BCDE, deep violet purple, large individual flowers in heavy clusters, midseason to late blooming, and of medium growth habit.

Marechal Foch, CDE, carmine rose, in enormous trusses, early midseason blooms, on long straight stems from vigorous growing bushes.

Monument, BCDE, a showy white, in very compounded rounded clusters, blooming well above the foliage. Has an enormous crop of flowers in early midseason on fast-growing plants.

Mrs. W. E. Marshall, BCDE, dark purple, in large clusters borne well above the foliage. Late blooming, on good medium growing plants.

Prodige, BCDE, deep purple, large individual flowers in short, heavy clusters borne in midseason on medium growing bushes.

Purple Heart, BCDE. Plant Pat. No. 832. This very early variety has purplish black buds, opening to deep purple, **single**, very large flowers attaining between $1\frac{1}{4}$ to $1\frac{1}{2}$ inches in width, borne in large clusters.

Volcan, CDE, dark ruby purple, medium flowers in medium sized clusters; rather late blooming on slow-growing plants. After over 60 years, this is still one of the better dark-flowered single varieties.

Assorted, grafted from choice named varieties.

5 gal.	2.50
gal.75

Assorted, mixed colors.

gal.65

Oriental Magnolias

At this time we are in the process of completely changing our production methods on Oriental Magnolias in order to assure our customers of receiving higher quality plants with more flower buds. It is too early at this time to know what we will have available for 1960-1961 delivery, so we are not listing them here.

We are continuing to grow an extensive list of both species and hybrid varieties, mostly selected from our long continued trials of Magnolias, and expect to again offer them in variety next season.

Flowering Quinces

Chaenomeles (Cydonia) (4-5)

Our 25 or more years of breeding and selecting Flowering Quinces has resulted in several completely new varieties being offered to the trade. These are unique in form, quantity of bloom and the tremendous increase in size and color range of the flowers.

We have carefully revised our list as new introductions have proven themselves so that today we can offer the finest, most complete list of Flowering Quinces available anywhere.

Because of the extremely long blooming season and the short dormant period of Flowering Quinces here on the West Coast, it is recommended that when received, the plants be canned immediately so that later crops of flowers will develop for display; although the best flowers will not be produced until the plants have been established for at least a year.

(Quinces must be ordered in multiples of 5 of a size and variety as they are bundled that way when dug.)

NOVELTIES

Below are listed two of our latest introductions which we believe to be the best flowering quinces we have seen to date.

They are also examples of the new improved forms, one being upright and fairly rapid growing, while the other is low and spreading. Both are thornless.

CAMEO

The finest **double** flowering Quince we have found, having 20 or more petals and a pleasing, soft apricot-pink coloring. Flowers are large and borne in great profusion on the compact, bushy plants. This variety is outstanding in every way including color, doubleness and freedom of bloom. Habit of growth low and spreading, and thornless.

3 to 4 ft.	1.50
2 to 3 ft.	1.25
1½ to 2 ft.	1.00
1 to 1½ ft.	.80

CLARKE'S GIANT RED

The more than 20 years of Quince breeding by the late W. B. Clarke has resulted in producing what we believe to be the largest and finest red flowering Quince to date. **Clarke's Giant Red** is a deep, bright red of great brilliancy, 2½ inches or more in diameter. The enormous overlapping petals and prominent golden stamens make a showy contrast. It is an orderly shaped shrub with dark green serrated foliage. Extremely free blooming, having several crops of blossoms, resulting in a long flowering season.

3 to 4 ft.	1.50
2 to 3 ft.	1.25
1½ to 2 ft.	1.00
1 to 1½ ft.	.80

FLOWERING QUINCES (continued)

SELECTED LIST

3 to 4 ft.	1.40
2 to 3 ft.	1.25
1½ to 2 ft.	1.00
1 to 1½ ft.	.75

Available in all sizes except where otherwise shown.

AFTERGLOW, Plant Pat. No. 847. Large *double* flowers, opening pure white, later becoming pink, and finally rose. First crop opens medium late, with later crops after foliage starts. Plants are bushy and erect.

APPLEBLOSSOM, a unique blending of rose, pink and white flowers open almost white and quickly deepen to the "appleblossom" coloring. Early to midseason, with long blooming period. Erect growing shrubs.

CANDIDA, large pure white, blooming in early mid-season, with one or more later crops of flowers. Of tall and fairly rapid growth habit.

CARDINAL, very large brilliant deep red flowers borne profusely all over the plant. Early blooming, and bearing flowers continuously for a long period of time on the tall, bushy plants.

CHARMING, soft shell pink, deepening toward the edge of the petals. Flowers borne on long thornless shoots in a succession of crops. An orderly shrub to about 6 feet.

CORAL BEAUTY, very fine rosy coral, with a softer coloring at center of flower. Blooms early to late with several crops of flowers. Shrub is bushy and wider than high, practically thornless.

CRIMSON & GOLD, large flowers a magnificent deep crimson, with large showy golden anthers. One of the earliest to bloom, but lasting well toward the end of the season with a succession of blooms. A neat, well branched shrub of moderate height.

ENCHANTRESS, very large flowers, a true shell pink deepening somewhat with age. Early midseason to late blooming on an upright growing plant.

FLAMINGO, a soft coral pink, large flowers, having a long blooming season. An upright growing, many-branched plant.

FLOWERING QUINCES (continued)

SELECTED LIST (continued)

MINERVA, enormous flowers, a vivid rose, deepening to rose red. Blooms from midseason to later than almost all other Quinces. Habit is low growing, but erect.

(available in 2 to 3 ft. and 1½ to 2 ft. grade only)

PINK BEAUTY, flowers opening pink, deepening to rose pink as they mature. Very early and heavy bloom, followed by a succession of several later heavy crops of flowers. Growth is vigorous and upright.

PINK LADY, large clear pink flowers, first crop early, followed by several more crops. Growth is low and spreading and plants are practically thornless.

RED CHIEF, deep red *double* flowers, opening in mid-season and continuing with a succession of flower crops to late in the season. Of medium size and upright growth habit.

RED RUFFLES, Plant Pat. No. 941.

Large brilliant red ruffled flowers of exceptional quality. Blooms heavily from midseason to late. An upright, slender and vigorous grower.

ROXANA FOSTER, flowers large and profuse, a deep shell pink, shading to carmine at the tips. Blooms almost continuously from midseason to late. Habit is compact and slow growing.

SNOW, enormous snow white flowers without any other color, blooming from midseason to late, on strong well developed plants. This is the best white flowering Quince we have seen.

STANFORD RED, the large flowers open tomato red, deepening to a rich red. Blooms from early mid-season to very late, and cut flower branches last exceptionally well indoors. A rapid growing, spreading plant, of pleasing habit, and highly recommended.

TEXAS SCARLET, very large watermelon red or scarlet flowers, profuse blooming from early midseason to late. Plant is of moderate, compact growth, and thornless.

QUINCES, by color only.

Red, Orange, Pink, White and Bicolor.

'Newport Red'**'Praecox Floreal,'** crimson.**'Rosea,'** (W. florida) pink.**'Springtime,'** rose outside, flesh inside.**XANTHOCERAS sorbifolium (5)****YELLOWHORN; HYACINTHSHRUB**

A beautiful deciduous flowering shrub or small tree. Leaves resemble those of Mountain Ash. Flowers are funnel-shaped with five white, crinkled petals, borne in erect panicles. At base inside are five little bright yellow horns, also a conspicuous blotch which soon turns red. Flowers profusely in late spring.

gal.65

Climbers**CAMPsis grandiflora (7)****CHINESE TRUMPETCREEPER**

Bears great sprays of funnel-shaped yellowish flowers suffused at tips with orange-red.

gal. grafts 1.25

'Mme. Galen' (5)

(Tecoma radicans x Campsis grandiflora)

Hardier and stronger growing than C. grandiflora. The flowers, borne in large clusters at end of shoots, are almost as large as those of C. grandiflora and much redder. It blooms profusely all summer.

gal. grafts 1.25

EUONYMUS fortunei 'Radicans Variegatus' (5)**CHINESE VARIEGATED EUONYMUS**

Hardy evergreen groundcover.

gal.65

TRACHELOSPERMUM (Rhynchospermum)**asiaticum (7), primrose yellow.****Sold out for this season.****jasminoides (8-9)****STAR JASMINE**

Can be used as a climber or a ground cover. Bears fragrant white flowers in profusion.

gal.65

Wisterias

For many years we have grown what we believe to be the best available collection of Wisterias in this country, both vines and tree form.

They range in color through dark purple, lavender, blue, pink, and white, and in form, from the long-clustered floribunda (Japanese) types to the short-clustered sinensis (Chinese) and venusta (Silky) types.

We call your attention to the list and descriptions below, and invite you to try out these spectacular climbers and trees, as they are hardy throughout the United States, except for the coldest areas of Zones 3 and 4.

Climbing form, grafted (4-5)

3 year	1.75
2 year	1.50

floribunda 'Geisha' (4), blue.

floribunda 'Issai,' blue purple.

floribunda 'Longissima,' extra long light purple.

floribunda 'Longissima Alba,' white.

floribunda 'Rosea,' pink.

floribunda 'Royal Purple,' violet purple.

floribunda 'Violacea Plena,' double violet.

sinensis (5), Chinese Wisteria, blue.

sinensis 'Alba,' White Chinese Wisteria.

venusta 'Alba' (5), White Silky Wisteria.

venusta 'Violacea,' Silky Wisteria, lavender purple.

(For Tree Wisterias see Page 56.)

ROSES

BUSH, CLIMBING AND TREE FORM

See our list No. 6001 for complete descriptive catalog of the finest *Northern California* grown Roses —both patented and non-patented varieties.

Tree Wisterias

These unusual Wisterias grown in tree or "Standard" form are greatly desired as specimen plants. When they are mature they have heads to 6 or 8 feet in diameter, and carry hundreds of flower racemes hanging gracefully all over the tree.

Because it is necessary to prune or "pinch" the long runners formed each Spring, these trees produce a maximum of short flowering spurs, so that the mass effect of such trees in full bloom is almost unbelievable.

Plants listed below are already headed, and need merely to be planted, staked and pruned occasionally during the growing season to give the most beautiful display each Spring.

grafted

A - Heavy grade (about $\frac{5}{8}$ in. caliper)	5.50
B - Regular grade (about $\frac{1}{2}$ in. caliper)	4.50
